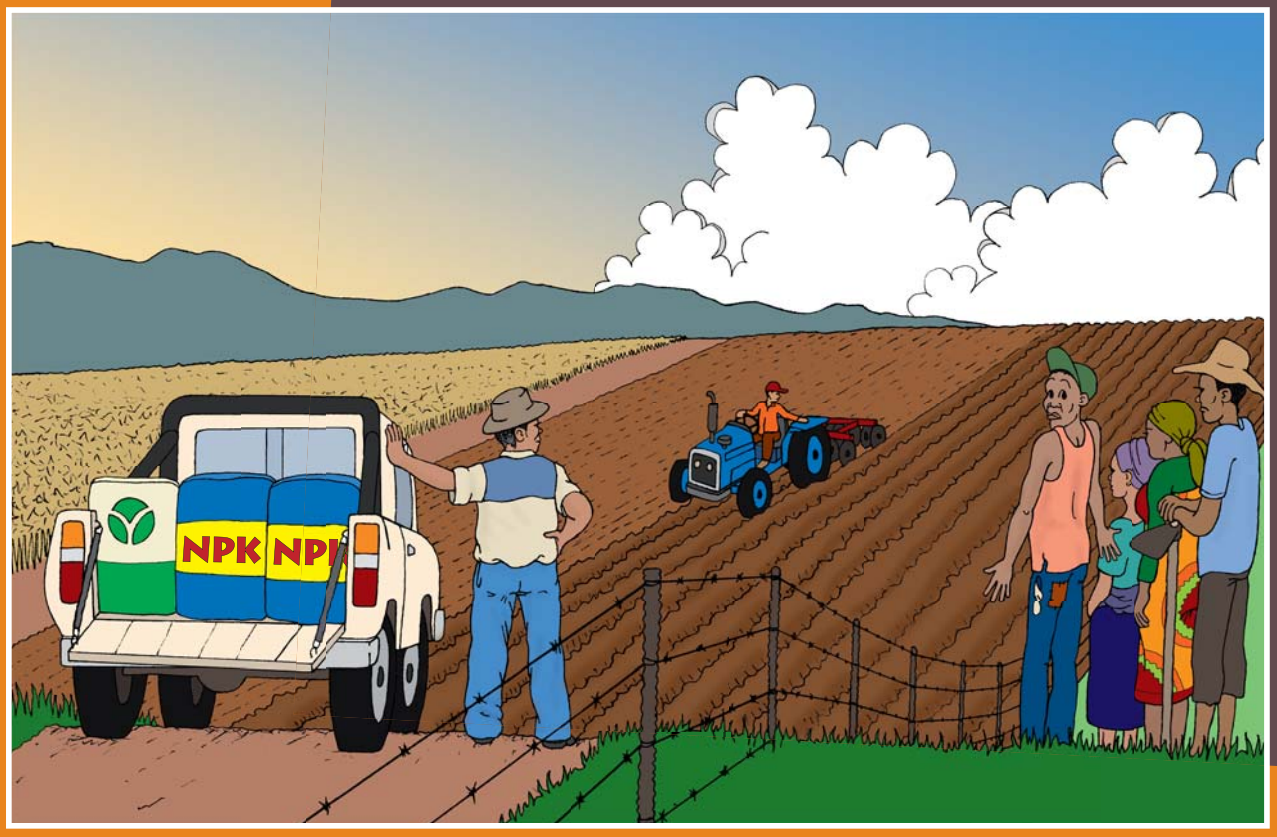
# IGREEN REVOLUTION (LE NDLELA INTSHA YOKULIMA) E-AFRIKA?



duducoelho.com

I Green Revolution ibhekisa kuphuhliso lweembewu ezinesivuno esiphezulu kwaye olungentlobo ngentlobo, ikwabhekisa 'kwiintlobo eziphuculweyo' okanye 'iintlobo ezivunyiweyo'. Ezi ntlobo zeembewu zenzelwe kanye kanye ukongeza isivuno ngehekthare, ziyinxenye yomgodlo weteknoloji oquka izichumisi zoozenzele, izitshabalalisi khula nezinye izifakwa zeekhemikali, uncedo lwezimali, uqinisekiso kwemveliso yezimalike njalo njalo

Amagosa eGreen Revolution aphikisa ngelithi le ndlela yeyona ingcono ukuqhubekekisa ezolimo, ukutya nokhuseleko lwesondlo. Umcabango wabo uthi abalimi bazakuthenga izifakwa ( abathi bafumane inkxaso yezimali ukuyiqala le nkqubo), ezakwenza ukuba babe nesivuno esiphezulu banokusithengisa bafumane inzuzo. Le nto izakuqinisekisa ukuba bafumana ingeniso eyaneleyo ukuthenga ukutya okufikela ixa elizayo lokulima nokuthenga izifakwa ukuqhubekekisa enye imveliso.

**Kodwa enyanisweni ayisebenzi kanjalo, kwaye liqaqobana nje labalimi abazuza lutho kulendlela.**
